- Visual Studio • Laragon • Figma • Moqups
- Microsoft Office Suite (Word, Excel, PowerPoint)
- Agile Methodology • Basic Git

### Core Competencies

- System Troubleshooting • Technical Documentation
- Team Collaboration • Adaptability

## CERTIFICATE

- **SAP S/4HANA Participation Certificate** (HCM, WM, PS, EAM, CS, QM modules – Global Bike) STI College Philippines | August – December 2024

## PROFILE

Motivated entry-level software developer with hands-on experience in desktop application development through academic projects, using .NET MAUI C# and MySQL. Skilled in MVVM architecture, database design, and Agile methodologies. Strong problem-solving abilities with a focus on building reliable, user-centered, and secure software solutions.

## PROJECTS

### Capstone Project: Inventory Management System with Point-of-Sale and Sales Reporting

Coftea (Coffee & Milk Tea Shop) | Team of 4 | .NET MAUI, C#, MySQL, MVVM | 2024–2025

- Developed cross-platform desktop application for real-time inventory tracking, low-stock alerts, and efficient POS transactions.
- Designed and implemented MySQL database managing products, sales, user roles, dashboards, and reporting.
- Applied Agile methodology in planning, UI/UX design (Figma & Moqups), development, and testing phases.
- Performed alpha/beta testing and feedback integration to optimize usability, performance, and security via role-based access.
- Delivered digital solution replacing manual processes, improving transaction speed and operational efficiency (validated by client and panel).
